

INFORMATIONS ABOUT SEK WIRELESS NETWORK

DEAR COLLEAGUE / STUDENT!

The „**eduroam**” wireless network is available to all our colleagues and active students in the Savaria University Center of ELTE and in the Pável Ágoston dormitories.

This service is compatible almost all of WiFi capable devices (notebook, mobile phone etc.).

A unique account is required to use the network.

If you are not work/learn on ELTE, but your institution is connected to the eduroam service, you can use your own institution id to access this network.

REQUEST ACCESS

You can request access at our [customer portal](#). Click to „Belépés” text at the bottom of the page to enter this site. You need your IIG ID and password to log in. If you don't have IIG ID you can log in with your Neptun code and Neptun password and after it you can create the IIG ID.

After login choose the „WiFi access” option and follow the steps.

SETUP GUIDE

Choose the „eduroam” SSID (network ID) on your device. The username is your IIG ID and '@elte.hu' for example: xy@elte.hu, the password is your IIG password.

At the „CA certificate” row choose „Use system certificates” and type „elte.hu” in the „Domain” field.

If necessary and if the device asks choose „trust” sign at the network settings.

If you have any further question please write an e-mail to informatika@sek.elte.hu.
